PROFESSIONAL SUMMARY

Security+ and ISO/IEC 27001 Lead Auditor-certified IT infrastructure professional with 10+ years of experience across network support, systems troubleshooting, device repair, and technical operations. Applied ISO 27001:2022 and NIST CSF 2.0 to an owner-operated small business by developing risk, control, policy, evidence, supplier-risk, readiness, and corrective-action artifacts. Skilled in evaluating technical evidence, documenting control gaps, communicating business risk, and prioritizing remediation.

CORE QUALIFICATIONS

GRC & Compliance: Risk assessment, control testing, gap analysis, evidence mapping, Statement of Applicability, policy development, supplier risk, audit readiness, CAPA, remediation tracking

Frameworks: ISO/IEC 27001:2022, NIST CSF 2.0, CIS Controls v8 | **Technical Risk:** IAM, vulnerability management, security logging, incident analysis, Windows events, network security

Tools: Splunk, Qualys VMDR/CSAM, Wazuh, Wireshark, Windows Event Viewer, Microsoft 365

SELECTED GRC AND SECURITY PROJECTS

THE PHONE BOSS ULTD - ISO 27001 & NIST CSF GOVERNANCE PROGRAM | 2026

- Developed 10 connected ISO 27001 governance artifacts covering ISMS scope and context, risk assessment, control applicability, policies, readiness testing, evidence ownership, supplier risk, awareness metrics, and corrective action.
- Built a scored risk register and treatment plan; evaluated Clauses 4-10 and selected Annex A controls; completed a NIST CSF 2.0 Current/Target Profile across all six Functions and 22 Categories with a prioritized 10-action roadmap.

GRC ASSESSMENT ASSISTANT - INTERACTIVE PORTFOLIO DEMO | 2026

- Designed a human-governed, evidence-led intake-to-report workflow that captures company context, evidence, and control responses, then produces draft findings, risk ratings, framework mappings, and remediation priorities for professional review.

GRC ASSESSMENTS & SECURITY INVESTIGATIONS - INDEPENDENT PORTFOLIO | 2025-2026

- Completed five clearly labeled fictional GRC assessments and investigated authentication, phishing, Windows event, DNS, brute-force, and network activity using Splunk, Wazuh, Wireshark, and Windows Event Viewer.

PROFESSIONAL EXPERIENCE

THE PHONE BOSS ULTD | Owner / Device Repair Technician | 2019-Present

- Diagnose, repair, refurbish, and quality-test 20+ smartphones and tablets per month while managing customer intake, estimates, inventory, vendor sourcing, records, payments, and after-service support.
- Completed CCTV and field infrastructure work involving Cat5/Cat6 routing and termination, patch panels, equipment racks, connectivity testing, and installation of servers and routers.

INTERCONNEXION POINT LIMITED | Senior IT Network Technician | 2020-2023

- Supported enterprise networking, systems, connectivity, and end users; contributed to multi-office restructuring and recabling in a large industrial environment; installed and documented servers, routers, CCTV, cabling, patch panels, and racks.

TECHCOM WIRELESS | PC/Mobile Repair Technician / In-House IT Support | 2012-2019

- Diagnosed computer and mobile hardware/software issues, supported connectivity and server maintenance, and delivered customer-facing and internal technical support.

CREDENTIALS AND TRAINING

Certifications: ISO/IEC 27001 Lead Auditor (2026) | GRC Mastery (2026) | CompTIA Security+ (2026) | Splunk Core Certified User (2026) | Google Cybersecurity Professional Certificate (2023) | Qualys VMDR & CSAM (2023) | Cisco Network Defender Training (2026)

Training: Per Scholas Cybersecurity Program (2026), intensive full-time vocational program | **Education:** High School Diploma
